

Hart ISD
School Health Advisory Council
Strategic Plan

MISSION:

All children will participate in a coordinated health education that prepares them with the knowledge and skills to maintain a healthy lifestyle.

Vision: The community and parents will be actively involved in promoting health education at Hart ISD.

GOALS:

To provide children in grades K-12 health instruction that reflects current health issues facing the community.

OBJECTIVES:

By the start of the next academic year, design and implement a progressive health curriculum that meets the needs of all of our students.

Plan and secure quality supplemental programs on a regular schedule enhance the core curriculum.

ACTIVITIES:

Investigate health curricula and present examples to the SHAC for recommended implementation at the start of the next academic year.

Research supplemental programs and present to SHAC and Administration.

Schedule selected programs.

Secure funding to pay for supplemental programs.
